Online Education

1. Does all programs/courses were completed on time.	Yes
2. Measures taken to complete the syllabus of courses and programs.	There are several teaching and learning aids are available that are adopted by faculty and institutions to deliver the lectures in best possible manners. The conventional black/green boards-chalks teaching- learning supported by overhead projectors (OHP), audio-video lectures, PPT presentations, 3D or 2D graphical videos and animated lectures are available. Now, due to pandemic, significant changes in teaching-learning methodology have been observed and the faculty and institutions have adopted online live teaching methodology to deliver the content of their syllabi. The online teaching may be categorized into two different categories, one is through pre-recorded lectures and another is through live interactive sessions. Now, several tools and techniques are available to record and broadcast the live lectures at the same time to the students. However, the online teaching-learning is a combination of audio-video and visual presentations through pre-prepared PPT and digital boards. During this pandemic period, our faculty members have delivered their lectures through Google classes and also make available their recorded lectures to their respective students through the same platform. The same platform is also used to share and evaluate the assignments, class tests and examinations as well. However, at the same time, the students and faculty members faced several challenges because of lack of resources and experience at the initial level. But, now the most of the students and faculty members of the various departments are well versed with the available technology and now they feel very comfortable to deliver and attend the lecture through online mode. One of the best aspects of online teaching is that the students may access the recorded lectures at any time from any place. This online audio-video lecture also promotes self paced learning among the students. It is also being observed that various renowned and multinational companies prefer to recruit the well trained and through pre – placement assessment agencies. Generally, these companies use self-assessment and competitive coding portals to short list and recruit the candidates. In addition to that there are several portals and agencies are available to provide various online facilities to the students and faculty members like self assessment, certification on latest technology and competitive coding. The institute encourages to its students, staff and faculty to actively participate in such online self assessment, certification and competitive coding programs. Our several students, faculty and staff members are benefitted through these self paced learning modules.
